& ENVIRONMENT**

a company of **A-TEC** INDUSTRIES AG

## PRESS RELEASE

### **More success for A-TEC Industries Plant Construction Division Austrian Energy & Environment lands major contract for combine cycle power plant in Australia**

Vienna, 4 May 2007 – Austrian Energy & Environment (AE&E) has won a major contract to build a 140 MW cogeneration station for Condamine Power Station Pty Ltd (CPS) in Queensland, Australia. The order is worth EUR 95 million, and the plant is scheduled to come online in August 2009 after 24 months' construction time. The booking comes on top of record order backlog at the A-TEC Group's largest division — already at an all-time high of EUR 1.55 billion at the end of the first quarter.

Commenting on the contract win, Mirko Kovats, CEO of Vienna listed A-TEC Industries AG, AE&E's parent company, said: *“Last year we made very rapid inroads in the Pacific region, and particularly the Australian market, thanks to the integration of the company taken over from the Alstom Group at the end of 2005. AE&E Australia is performing excellently. This large order is impressive proof that the acquisition has been a wise success, and is a significant achievement for the entire group.”*

#### **About Austrian Energy & Environment**

Austrian Energy & Environment AG (AE&E), which is seated in Raaba, near Graz (Austria), is a leading, international supplier of power generation and environmental technology systems. The product portfolio contains boilers and boiler plants, flue gas cleaning systems, waste incineration plants, turnkey biomass and industrial plants, coal gasification units and valves, and services ranging from engineering and modernisation, to modifications and plant operation. The Group, which also includes the Swiss company, Von Roll Inova and the Spanish Babcock Power España employs a workforce of around 2,700 in Graz and Vienna (Austria), Zurich (Switzerland), Cologne and Nuremberg (Germany), Brno (Czech Republic), Paris (France), Norcross (USA), Bilbao and Madrid (Spain), Shanghai (China), Chennai (India), Sydney (Australia) and Slavonski Brod (Croatia), and is owned by A-TEC Industries AG.
